

WIRÓWKA LABORATORYJNA  
LABORATORY CENTRIFUGE

**MPW-352/MPW-352R/MPW-352RH**

Nº 10352/10352R/MPW-352RH

PRODUKT POLSKI  
MADE IN POLAND

TRADYCJA OD 1948  
TRADITION SINCE 1948

|                                                                                   | MPW- 352                            | MPW- 352R                                     | MPW- 352RH                                    |

<sup>1)</sup> Czas uzyskania żądanej temperatury oraz możliwość jej osiągnięcia uzależniona jest między innymi od rodzaju wirnika, prędkości wirowania, temperatury otoczenia  
Time and possibility of obtaining a set temperature is dependent on multiple factors, including: established RPM, rotor type, ambient temperature.

Wirówka wentylowana **MPW-352**, wirówka z chłodzeniem **MPW-352R** oraz wirówka **MPW352RH** z chłodzeniem i grzaniem stanowią rodzinę wysokowydajnych, uniwersalnych, stołowych wirówek laboratoryjnych. Znajdują one szerokie zastosowanie we wszelkiego rodzaju laboratoriach min. medycznych, naukowych i przemysłowych, biochemicznych, weterynaryjnych i innych. Wirówki zapewniają uniwersalność zastosowań, wysokie parametry wirowania oraz precyzję i powtarzalność procesów. Posiadają najszerszy zakres dostępnych wirników i innych elementów wyposażenia.

The ventilated centrifuge **MPW-352**, the cooled centrifuge **MPW-352R**, and the refrigerated and heated centrifuge **MPW352RH** belong to a range of highly efficient, universal, tabletop devices designed for laboratory applications. They are widely used in medical, scientific, industrial, biochemical, veterinary and other laboratories. The specific features of these centrifuges provide versatility, high parameters and precision of centrifugation as well as repeatability of processes. Additionally, they are accompanied by the widest selection of rotors and other accessories.
